OBJECTIVE

Third-year BCA student who builds full-stack web applications from the database up — comfortable designing REST APIs in Java, working with MySQL, and building responsive front ends in HTML, CSS, and JavaScript. Seeking a Software Developer Intern role to apply these fundamentals to real-world problems and keep growing as an engineer.

EDUCATION

Bachelor of Computer Applications (BCA)

2023 – 2027 (Expected)

International Institute of Technology and Management, Murthal, Haryana | CGPA: 7.5 / 10 | Currently in 3rd Year

Senior Secondary (Class XII)

Percentage: 67%

TECHNICAL SKILLS

- Languages: Java, JavaScript
- Front-End: HTML, CSS, vanilla JavaScript (DOM manipulation, Fetch API)
- Back-End: Core Java (com.sun.net.httpserver), REST API design, JDBC
- Databases: MySQL
- Tools & Practices: Git, GitHub, environment-based configuration for secrets management

PROJECTS

Internship Application Tracker — Full-Stack Java Web App

github.com/Dhruv481821

- Built a full-stack web app to track internship/job applications (company, role, status, deadlines, notes), replacing a manual notes-based workflow with a structured dashboard.
- Designed and implemented a REST API from scratch in core Java using com.sun.net.httpserver (no external framework), with full CRUD operations against a MySQL database via JDBC.
- Built a responsive front end in HTML, CSS, and vanilla JavaScript that consumes the API via the Fetch API, including live application-funnel analytics (interview and offer conversion rates) and automatic highlighting of overdue follow-ups.
- Externalized database credentials using environment variables instead of hardcoding them, following secure configuration practices.
- Tech Stack: HTML, CSS, JavaScript, Java, JDBC, MySQL, Git/GitHub.

CERTIFICATIONS

- Git & GitHub Bootcamp — LetsUpgrade, in collaboration with NSDC & ITM Edutech Training Pvt. Ltd. (April 2026)
- AI Tools Workshop — be10x: AI-assisted presentations, data analysis, and code debugging (March 2026)

ACHIEVEMENTS

- Participated in HackRust 1.0, a hackathon organized by Deenbandhu Chhotu Ram University of Science and Technology (DCRUST), Murthal, as part of Team CodeRed (April 2026).
